Restart vaccination course without FeLV **£35.40**

Neutering operation while I am away** (includes pre-op health check)

Castration **£53.40**

Spay **£82.44**

Dental operation while I am away** (includes pre-op health check)

You will be given an estimate when you see the vet **from £225**

Flea check **£13**

Apply prescription flea treatment† **£9**

Give prescription worm treatment† **£6**

Send home with prescription flea and worm treatment†

6 months **from £44**

12 months **from £84**

Microchip identification **£10**

I would only like my cat to see the vet if my cat is ill while I am away (you would be charged the price of a health check and any treatment or medications required)

* Full report from the vet will be given on your return

** You need to make an appointment to see the vet at Cleracres before you go away if your pet is to have an operation during his or her stay

† Unless your cat has been seen by a Highcroft vet in the last 12 months, your cat will need to have a flea check (or full health check) by our vet before we can prescribe these medications. We can do this during his or her stay at Cleracres
